Last Chance

The supply of bulbs for Fall planting is very low—due to the war in Europe which prevented the shipping of any bulbs from the other side. Fortunately, we have a complete assortment today, but in a few weeks our stocks will be badly depleted. This is our Last Minute listing of varieties on hand.

PRIVATE COLLECTORS' VARIETIES

(Very Limited)

It has been our practice every year to plant out in our grounds, for checking purposes, the new and better varieties of Tulips. The result is that we have an excellent stock of new rare varieties which, although we cannot classify them as top size, will average 10 to 11 cm., a good second size that will be sure to bloom. These splendid varieties are not in sufficient quantity to list separately, so we have made a mixture of the most select. Fifty per cent are varieties worth 50c. each, or more.

PRIVATE COLLECTORS' MIXTURE — \$2.00 per doz., \$15.00 per 100

ENGLISH-GROWN DARWIN TULIPS

England for many generations has been the center of a huge tulip producing industry. English growers have been loath to part with any of their planting stocks due to the high degree of perfection they have attained. Through our contacts in the past with English growers we have been fortunate in obtaining the following varieties:

ALL TOP-SIZE BULBS

- ***Bortigon.** Fiery scarlet. Will tone up any garden. 24 in.
 - ***Cloro Butt.** Salmon-rose. One of the best. A "must" variety. 24 in.
 - ***Horry Veitch.** Brownish red—an unusual color for a Darwin. 24 in.
 - ***King George V.** Brilliant cherry-red; enormous flower. 26 in.
 - ***King Harold.** Rich maroon. Very distinctive. 24 in.
 - ***Le Notre.** Fine early rose-pink. One of the best cup-shaped varieties. 24 in.

AMERICAN NARCISSI and DAFFODILS

There is hardly a bulbous flower in existence that brings more joy and cheer to garden lovers than the golden yellow bicolor and the white Narcissi.

Our forefathers, the pioneers who settled in the United States, brought them to insure the beauty and cheer they were accustomed to in their native lands.

The varieties we offer are the descendants of these hardy pioneers of the Narcissus family, highly developed and selected for beauty and vigor. All are 100 per cent American-grown.

SCHLING'S BULB FIBER

This specially prepared Bulb Fiber has been improved by the addition of various essential minerals for the successful growing of bulbous flowers. This material enables one to plant bulbs in decorative bowls without drainage, thereby enhancing the beauty of the entire arrangement. It is treated to prevent stagnation or putrefying and never gives off an offensive odor.

Such bulbs as Amaryllis, Paper-White Narcissi, Lily-of-the-Valley, Roman Hyacinths, Freesias, Calla Lilies, and most all of the other bulbs for home-culture thrive exceedingly well in this preparation. 25c. per qt., 75c. for 4 qts., \$1.35 per pk.

PLANT ROSES THIS FALL

Dormant Roses planted in the fall are accredited by foremost Rose-growers as producing the best results. Among the many

reasons for this, the principal one is the establishment of a strong fall root system so that after the winter rest period the plant begins to grow without check. Here is a selected list of proved varieties.
Ami Quinard. One of the darkest reds. Fragrant. Strong grower.
Betty Uprichard. Salmon-pink with coppery carmine reverse. Fragrant.
